Bumper-to-Bumper warranty
Accidents can take your equipment out of service when you least expect it, especially in a rugged environment, which can cause costly equipment downtime.

That is why Getac has introduced accidental damage as standard under our new Bumper-to-Bumper warranty, to help minimize your enterprise IT costs.

Bumper-to-Bumper is your hassle-free guarantee.

That means you can depend on us to have your unit back in service within days.

Standard
3 years Bumper-to-Bumper.

---

i   Android 7.1 is not available with Viasat MDM capability and Trivalent file level encryption capability.
ii Bluetooth performance and connectable distance may be subject to interference with the environments and performance on client devices, users may be able to reduce effects of interference by minimizing the number of active Bluetooth wireless devices that is operating in the area.
iii Bluetooth v4.0 is available to Android 5.1 only and Bluetooth v4.2 is available to Android 7.1 only.
iv Weight and dimensions vary from configurations and optional accessories.
v   Tested by a national independent third party test lab following MIL-STD-810G.
