

Robust floor stand with cable routing

Stable and adjustable floor stand for easy access to devices anywhere.

Floor stand for permanent setups & temporary displays

- Ideal for shops, exhibitions, events, entrances, or any location where quick access is important.
- Its hollow interior allows cables to be routed neatly, keeping your setup tidy and safe.
- Optional accessories available for added functionality and flexibility.

Why It Matters

Versatile use

The top mounting plate is 90x120x4 mm, angled 65°. The stand is adjustable in height 1070-1500 mm, so you can position your device for maximum accessibility.

Add more functionality

Optional mount accessories add functionality and flexibility. For customizing your installation of monitors, multiple devices, device accessories.

Secured cables

Hollow design allows cables to be routed neatly, keeping your setup tidy and safe. Top plate features 9 mm holes for securing cables with cable tie (not included).

Leveled on uneven floors

Base plate 500x400 mm with adjustable feet allows the floor stand to be leveled and remain stable even on uneven floors.

From temporary to permanent

By removing the feet, the base plate can be fixed directly to the floor for a permanent installation. Robust construction made from durable steel.

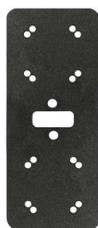

Compatible with all Brodit holders

The top mounting plate is 90x120 mm, angled 65°. It features industry standard 2xAMPS and VESA75 hole pattern for M4 screws. Made in Sweden.
