- Compatible with Next Generation IntelliSkin® docks & External USB-C Connector allows for charging without a dock
- Cut out section to allow fingerprint detection on power button
- Backed by a 3-year warranty

## PRODUCT INFORMATION

### OVERVIEW

The IntelliSkin® Next Generation protective sleeve for the Apple iPad mini 6 includes all the great features of the original IntelliSkin® adding several enhancements. An insert molded redesign of the skin combines a hard plastic shell with soft, shock-absorbent TPU. Ruggedized contacts for repetitive docking in field applications remain on the exterior, but are now flat to collect less dirt ; easier cleaning. And an integrated USB Type-C connector at the bottom of the skin allows for device charging even when you have a GDS® Dock™ available. Like the original IntelliSkin®, these sleeves still provide military-grade drop protection and prevent your device's charging port from constant docking with an integrated GDS® connector molded directly into the skin. The IntelliSkin® Next Generation for the Apple iPad mini 6 is compatible with a variety of GDS® Docks™ and accessories, as well as new docks upgrading existing GDS® vehicle docks.

**MATERIALS** Polycarbonate and Thermoplastic Elastomers

**PACKAGING TYPE** Retail Box

**PORTS** External USB Type-C Port\*

### ADDITIONAL INFORMATION
