- Charges up to six IntelliSkin®-wrapped handheld devices simultaneously
- Plugs directly into standard wall outlets
- Six ethernet ports allow for secure software updates during downtime
- Weighted base and rubber feet for stability
- Backed by a 3-year warranty

PRODUCT INFORMATION

OVERVIEW

The GDS® 6-Port Powered Dock for Handhelds with IntelliSkin® (RAM-GDS-DOCK-6G15P) was designed specifically to support up to six handheld devices wrapped in IntelliSkin®. This desktop dock reduces the amount of charging cords needed to charge each device by consolidating power through one cord and providing each handheld with its own charging bay to reduce clutter. Each bay includes an ethernet connection port (RJ45), allowing fleet-based updates to be securely pushed during downtime. This 6-port dock comes with 6 inserts that ensure compatibility for all Zebra handheld devices, easily remove from one or all bays to accommodate the Zebra TC7x series. Efficiently charge each handheld device while not in-use or overnight. Always Protected. Always Connected.®
