Introduction

DLT-V72 is a rugged vehicle-mounted terminal designed for logistics applications and to provide maximum system uptime. The thin bezel design allows to fit it into the smallest vehicle cabinet. Through its compact design it does not block the drivers viewable area, hence it is reducing the risk of an accident. Powered by an Intel® Atom™ E3845 quad-core, 1.91 GHz, processor with 4 GB RAM, DLT-V72 supports a wide operating temperature range (-30 ~ 50 °C/-22 ~ 122 °F) to withstand operation in extreme industrial environments (from hot and humid, to dry freezer environments). The Advantech low-profile antenna offers excellent transmission capabilities in a compact form factor. Meanwhile the touchscreen with touch control ensures easy input and gloved operation.
