- External USB Type-C connector allows for charging capabilities when GDS® Docks™ are not available
- Backed by a 3-year warranty

PRODUCT INFORMATION

OVERVIEW

The IntelliSkin® Next Generation protective sleeve for the Apple iPad Air (4th Gen) & iPad Pro 11" (1st, 2nd & 3rd Gen) incorporates great features of the original IntelliSkin® while adding several enhancements. An insert molded redesign of the skin combines a hard plastic shell with soft, shock-absorbing rubber. Ruggedized contacts for repetitive docking in field applications remain on but are now flat to collect less dirt and allow for easier cleaning. And an integrated USB Type-C connector at the bottom allows for device charging even when you don't have a GDS® Dock™ available. Like the original IntelliSkin®, these sleeves provide military-grade drop protection and prevent damage to your device's charging port from constant docking with an insert connector molded directly into the skin. The IntelliSkin® Next Generation for the Apple iPad Air (4th Gen) & iPad Pro 11" (1st Gen) is compatible with a variety of GDS® Docks™ and accessories, as well as new docking cups for upgrading existing docks.

MATERIALS

Polycarbonate and Thermoplastic Elastomers

PACKAGING TYPE

Retail Box

PORTS

External USB Type-C Port*

ADDITIONAL INFORMATION
