

521977 Active holder with cig-plug With USB-cable with cig-plug adapter. Apple approved charging cable. With tilt swivel

Use an active holder for your iPad while driving and you will always have a freshly charged battery! The holder provides a neat and comfortable installation -safe and convenient. The holder is equipped with an apple approved USB-cable with cig-plug adapter. You can choose to connect the cig-plug to the car's 12 Volt socket, or to remove the cig-plug adapter and connect the USB cable to the car's (or stereo's) USB connector.

Length of charging cable: 132 cm, incl cigg-plugg

Important note! In order to be able to transmit audio files from your device through the USB-cable, this feature must be supported by the stereo in your car. You can easily test if this works by connecting your device to the stereo with the USB/charging cable that comes with your device. Charging through USB works regardless.

The holder is mounted onto a tilt swivel so you can adjust the angle and switch between portrait and landscape mode.

Tablets should not be installed onto a car's dashboard if they block the view or block key controls. The ProClip is designed for installation of smaller devices (phones), not for large devices (tablets). If you want to place a tablet onto the car's dashboard, each combination of tablet-car must be examined in detail by you in order to determine if such an installation is possible in the specific case. Consideration should be given to the position and how firmly the ProClip is in place, as well as the size of the tablet you wish to use. Brodit will not give any recommendations for such installations.

An installation of a tablet onto a vehicle's dashboard is always done on the customer's own responsibility. Brodit recommends to use tablets on the car's headrest, installed onto a Brodit headrest mount.

This product supports Qualcomm QC 2.0 quick charge (provided the device supports Qualcomm QC 2.0 quick charge).

EAN: 7320285219779

Item no 521977 fits:

Apple iPad Air 2019 (For all countries)

Apple iPad Air 3rd Gen (A2123, A2152, A2153, A2154) (For all countries)

Apple iPad Pro 10.5 (A1701, A1709) (For all countries)

INSTALLATION INSTRUCTIONS

1.

2.

3.

4.

Please read all of the instructions and look at the pictures before attaching the holder.

1. Loosen the screw in the center of the holder so you can remove the tilt swivel attaching plate on the back.
2. Place the attaching plate onto the desired position. Screw the attaching plate into place with the enclosed screws. Place the holder over the attaching plate so the screw fits in the hole in the tilt swivel. Tighten the screw until the holder is firmly in place, but still can be adjusted.
3. To place the device in the holder: Slide it straight sideways into the holder so it connects to the connector. To remove the device from the holder: Slide it straight sideways out from the holder.
4. The holder is in place.
