LM-3000PRO
Cable Marking Printer

NEW

Cable Marking Printer

- *Fast*
- *Reliable*
- *Low or high volume applications*

 save time  save money  improve processes

Designed and developed to be one of the fastest, efficient and most cost-effective printers on the market with a wide range of consumables for control panel building and cable marking solutions.

Features and benefits

The robust design enables marking solutions in any engineering environment and capable of marking an array of ID solutions.

- Fast print speeds up to 80mm per second
- Sharp print quality at 300 dpi
- Print characters up to 6mm high
- Adjustable half-cut feature - 10mm to 150mm
- Double sided print option
- Vertical and inverse printing options
- Touch screen for basic operations
- User Friendly software and printer interface
- USB or Network connection

Consumables

Unique and flexible product range available from stock.

- Grip Sleeve. NEW patented product
- Cable tags
- Heat shrink from 3.2mm to 12.7mm
- Grip Tube. A unique marking tube
- ID plates for conductor sleeves
- Self-adhesive polyester tape
- PVC tubing
- Terminal block markers
- Halogen free & UL recognised materials

Software

The software for the LM-3000PRO has been designed with the user in mind at every stage, requiring little or no training.

Unlike most software's today the LM-3000PRO has no annual fee and comes with a lifetime multi user license.

Features include:

- Material selection
- Modify details of marker / multi line printing
- Easy sequential numbering
- Link to CSV file pulled from Auto Cad

**NEW
PRODUCT**

GRIP SLEEVE

Designed to eliminate the need for individual markers and labour-intensive heat shrink cable marking, this patented solution allows one product to mark multiple wire sizes. Its unique design delivers clear, highly visible cable identification, smooth placement along the wire and a secure grip once installed.

Comparison testing has shown that both Grip Sleeve and Grip Tube are 3 times faster than conventional marking methods.

Don't just take our word for it, scan the QR code below to see the difference for yourself.

Available in White and Yellow, with sizes to suit a range of wire diameters. Grip Sleeve is also a UL Recognised Component, UL224.

The LM-3000PRO enables you to print and cut markers to your required length for maximum flexibility and efficiency.

GRIP SLEEVE

This new market product provides clear, highly visible cable identification. Its unique design allows one size to fit multiple wire diameters and securely holds its position. UL Recognised to UL224

Sold by the roll, 75m per roll.
Refer to the chart to choose the correct Grip Sleeve for your wire size, then include the appropriate colour reference when ordering.

Outer Wire	Diameter (mm)	1.5	1.9	2.1	2.2	2.3	2.5	2.8	3.0	3.1	3.2	3.4	3.7	4.0	4.1	4.4	5.3

£195.00

Cable Marking Tags

Polyolefin extruded tags offer a reliable and highly visible solution for identifying both cables and pipelines.

With UV stability, low smoke and low toxicity emissions, this material is well suited for use in confined or enclosed environments, including rail, aerospace, marine, and industrial applications.

80mm x 15mm
200 tags/roll
£95.00

- Zero Halogen
- Flame retardant
- Low Smoke

Ink Ribbon

Thermal resin ink ribbons, compatible with all LM-3000PRO Consumables.
